RESUME

UŨ NGUYỄN HUÊ ANH

UI UX Designer

About me

Hello! I'm Hue Anh, based in Ho Chi Minh City, in Vietnam. I have three years of experience in UI/UX Design, specializing in mobile and web applications. My expertise lies in blending user research, wireframing, prototyping, and visual design to create engaging and intuitive user experiences.

In my current role, I take ownership of the end-to-end design process, from initial concepts to final implementation. I collaborate closely with developers, marketers, and other stakeholders to ensure that every design decision aligns with both user needs and business goals. My approach is always user-centered, ensuring that aesthetics and functionality work hand in hand to enhance the overall experience.

I am confident that my design thinking mindset, adaptability, and collaborative approach would make me a valuable addition to your team. I would welcome the opportunity to discuss how my skills align with your company's vision.

EXPERIENCE

Orbit Technology – April 2025 - April 2026

UI UX Designer/Graphic Design

Hands-on Experience in Web3 and CEX Exchange Development Projects

UI design:

- Analyze briefs and product requirements from PMs and clients
- Translate requirements into clear user flows, wireframes, and final UI designs
- Build and maintain design systems
- Design digital products (web, app, mobile) with strong UI/UX thinking and logical structure
- Redesign and improve existing websites and applications
- Collaborate with cross-functional teams to support campaigns and product development

Graphics Design:

- Design project logos based on briefs.
- Establish and maintain a unified visual style, ensuring consistency across all project assets.
- Design marketing collateral including blog and OG graphics, email newsletters, social media assets, print ads, and infographics.

#Illustration #UI Design
